LinkedIn: Sakuwaha Henry | GitHub: github.com/Eng-Sakuwaha

PROFESSIONAL PROFILE

Final-year Computer Engineering student at Copperbelt University with a strong foundation in embedded systems, computer hardware, computer architecture, networking, and technical troubleshooting. Experienced in practical engineering projects involving microcontrollers, RF signal detection modules, electronic components, and hardware/software integration. Seeking an Apprentice Technician opportunity to apply technical problem-solving skills, learn through hands-on workshop training, and develop practical competence in mining and construction equipment systems.

EDUCATION

Bachelor of Engineering in Computer Engineering

Copperbelt University | 2022 – Present | Expected Graduation: 2027

Relevant Coursework: Embedded Systems, Computer Architecture and Organization, Computer Communication and Networks, Operating Systems and Resource Management, Internet Technologies, Database Systems, Security and Computer Information, Software Engineering, Systems and Project Management, Data Structures & Algorithms.

High School Certificate

Solwezi Technical School | 2019

TECHNICAL SKILLS

- Embedded Systems & Hardware: Arduino IDE, microcontrollers, RF signal detection modules, electronic components, hardware/software integration.
- Networking & Troubleshooting: Computer communication and networks, Internet technologies, basic network troubleshooting and technical fault-finding concepts.
- Programming: C++, Python, Java, JavaScript, HTML/CSS.
- Tools & Technologies: Arduino IDE, Node.js, React.
- Technical Problem Solving: System troubleshooting, data handling, cybersecurity fundamentals, structured problem solving and collaborative technical work.
- Areas of Interest: Equipment Technology, Embedded Systems, Electrical/Electronic Systems, Technical Maintenance, Automation, Engineering Technology.

PROFESSIONAL EXPERIENCE

Graphic Design Intern | SmartTech Solutions and Trainings (Nigeria) | 2026

- Collaborate remotely with a technology company, demonstrating reliability, teamwork, attention to detail, and ability to work within structured project requirements.
- Use digital tools and structured workflows to complete assigned technical and creative tasks accurately and within deadlines.
- Communicate with team members, manage assigned tasks, and adapt to changing project requirements while maintaining quality standards.
- Recognised as the Most Hardworking Intern in Smart Tech Internship Programme — Cohort 2 (August 2026).

ACHIEVEMENTS

- Most Hardworking Intern — Smart Tech Internship Programme, Cohort 2 (August 2026). Recognised for consistency, dedication, resilience, determination, and commitment throughout the internship programme.

EXPERIENCE & LEADERSHIP

Launcher Engineers' Hub | Mentee | 2024

- Participated in a technical mentorship programme focused on engineering career development, industry preparedness, practical learning, and professional growth.

YouthTeamUp – 4th SVE | Team Member | 2025

- Participated in technology workshops and contributed to the proposal of AgroSecure – Fighting Poverty Through Smart Agriculture, strengthening teamwork and engineering problem-solving skills.

PROJECTS

Phone Detection System | C & Arduino

- Developed a group engineering project aimed at detecting mobile phone signals in restricted environments.
- Worked with an RF signal detection module, microcontroller, broadband antenna, LEDs, and buzzer, gaining practical experience in component integration and system testing.

Student Management System | C++

- Developed a C++ application for managing student records and attendance, strengthening programming, data handling, and logical problem-solving skills.
- Implemented file handling for data storage and persistence and tested the application functionality.

Bible Quiz Application | JavaFX

- Collaborated in developing an interactive JavaFX application, demonstrating teamwork, software integration, and systematic problem solving.

CERTIFICATIONS

- Grade 12 Certificate | 2019
- Launcher Engineers' Hub Certificate | 2024
- 2nd Edition of the Southern Africa–Netherlands Cyber Security School (SANCS) | 2025
- YouthTeamUp – 4th SVE Certificate | 2025

ADDITIONAL INFORMATION

Languages: English (Fluent), Luvala (Fluent), Bemba

Interests: Engineering Technology, Embedded Systems, Electronics, Equipment Technology, Automation, Networking, Cybersecurity, Software Development.

Availability: Apprentice Technician / graduate trainee opportunities.

REFEREES

- Pastor Ackim Mulasho — Pastor, Troy Baptist Church, Kalulushi | 0966 305 924
- Pastor Ngandu Elvis — Pastor, Grace Bible Baptist Church, Nkana East, Kitwe | 0969 129 928
- Mr. Mutosho Obson — Director, New Hope Orphanage | 0762 495 390
